SUMMARY

9+ years experienced Senior Front End Engineer with hands-on experience in identifying web-based user interactions along with designing & implementing highly-responsive user interface components by deploying React concepts. And logical and results-driven Web Developer dedicated to building and optimizing user-focused websites for customers with various business objectives. Judicious and creative when crafting effective websites, apps and platforms to propel competitive advantage and revenue growth.

WORK EXPERIENCE

06/2019 - 11/2022

Sr. Front End Engineer, BJSS | Leeds, UK (remote)

Responsibilities:

- Developed large scale web apps for MTS members and membership management with commerce & chat capabilities using React.js/ Redux/ TypeScript/ CSS3/ SASS/ Less/ Apollo/ Web-pack, HTML5 /JSX / React Native.
- Worked with cloud architect to generate assessments and develop and implement actionable recommendations based on results and reviews.
- We used Typescript, Angular13, Tailwind CSS to construct elegant user interfaces. We used Server-side rendering to make the website SEO friendly.
- Performed unit testing using Karma-jasmine, Cypress, Jest, Enzyme, Mocha, Chai.
- Planned Agile best practices and encouraged team cohesion, overcoming impediments, and hurdles to productivity.
- Developed web site using the Docker.
- Designed new mock-ups for a website layout that improved user experience and reduced bounce rate by 8%.
- Collaborated with 10+ senior team members to upgrade the websites of 150+ customers to catch up with changing industry standards.
- Improved organic search results by increasing the search engine results page from 9 to 2.

Sr. Front End Developer, Evolink | Sofia, BG (hybrid)

Responsibilities:

- Reviewed architecture of an Angular application that had multiple maintainability and performance problems. Identified key issues, mostly with using wrong components and an outdated build system.
- Engaged with other Scrum Masters to increase the effectiveness of the application of Scrum in the organization.
- Serve as the technical production lead, which includes adding new features and content types, writing and maintaining clean code in a best practices environment, and making sure websites function across multiple browsers and mobile devices seamlessly.
- Worked closely with Back-End Developers, as well as UI/UX Designers, Business Analysts, and test Engineers.
- Leveraged strong understanding of WordPress core to manipulate admin and theme components.
- Assisted in testing of applications by providing feedback on usability and functionality as well as identifying any defects that may exist within an application prior to release.
- Familiarity with SDLC and Agile environment.
- Promoted better component life-cycle practices, which increased turn around speed by 74%, an improvement from previous years.
- Developed and maintained React web applications for the company's clients, including bug fixes, enhancements, and new features.
- Used React web to develop a check-in system for a local sports facility, saving them over \$4,000 per year in subscription fees.

05/2015 – 01/2017

Junior Front End Developer, Tewktech | Tewkesbury, UK

Responsibilities:

- Wrote jQuery, AJAX function while implementing various UI Screens across the whole web application both consumer facing as well as internal application.
- Worked as a productive and positive team member to design, code, test, report and debug operations.
- Pioneered using isomorphic React.js and Node.js for 40+ web applications, which decreased lead times by 69%.
- Built responsive websites for 40+ customers using semantic React.js compiled using maven and webpack build tools.
- Worked as a part of an Agile team in the development of an enterprise service bus for Amsterdam Airport.
- Built custom Report viewing Web Parts and configured the layout of the portal page to

embed personalized reports from SQL/MySQL Server Reporting Services.

07/2013 – 04/2015

Front End Developer, ElanWave | Novi Sad, RS

Responsibilities:

- Built a front-end widget that is added as a single external script to an HTML page but works as a big library using Vanilla JavaScript and jQuery, SQL.
- Helped to achieve a consistent look and visual theme across the website by promoting uniform fonts, formatting, images and layout.
- Developed my teamwork skills by working in close collaboration with 10 other colleague.
- Worked on internal services with the design team, and manage time across multiple projects and tasks in a deadline-driven, team environment.
- Worked with UX designers, developers, product managers to develop a new membership platform that brought in a 37% increase in annual revenue.

EDUCATION

10/2009 - 06/2013

B. Tech. in Computer Science

Union University | Belgrade, RS

GPA: 3.85/4
