## SUMMARY

Logical and results-driven Web Developer dedicated to building and optimizing user-focused websites for customers with various business objectives. Judicious and creative when crafting effective websites, apps and platforms to propel competitive advantage and revenue growth.

## EXPERIENCE

### Sr. Front End Engineer

**BJSS ( Remote )**

📅 06/2019 - 11/2022    📍 Leeds, UK

Responsibilities:

- Developed large scale web apps for MTS members and membership management with ecommerce & chat capabilities using Angular14/ TypeScript/ Sass/ Less, HTML5 /JSX.
- Created several Angular components with D3 charts that support interactive visualizations of market data projections and analysis.
- Designed and built a JavaScript request library that allows us to fetch, cache, and subscribe to data updates at each level of the offer tree.
- Led version control efforts for organization, employing public and open source repositories.
- Expert in Git as version control.
- Tested web-based product functionality and delivered iterations to customer and performed unit testing using Karma/jasmine.
- Worked with product Managers and Web Designers to implement flexible, maintainable, reusable and professional UI components. .
- Planned Agile best practices and encouraged team cohesion, overcoming impediments, and hurdles to productivity.
- Collaborated with 10+ senior team members to upgrade the websites of 150+ customers to catch up with changing industry standards.
- Designed new mockups for a website layout that improved user experience and reduced bounce rate by 8%.
- Improved organic search results by increasing the search engine results page from 9 to number 2.

### Sr. Front End Developer

**Evolink ( Hybrid )**

📅 02/2017 - 05/2019    📍 Sofia, BG

Responsibilities:

- Reviewed architecture of an Angular application that had multiple maintainability and performance problems. Identified key issues, mostly with using wrong components and an outdated build system.
- Created a prototype using Angular 5.0, Component Router, and some other suitable open-source libraries. Integrated Formly framework with OData definitions to allow for sharing validation rules between the front end and back end.
- Serve as the technical production lead, which includes adding new features and content types, writing and maintaining clean code in a best practices environment, and making sure websites function across multiple browsers and mobile devices seamlessly.
- Assisted in testing of applications by providing feedback on usability and functionality as well as identifying any defects that may exist within an application prior to release.
- Worked closely with Back-End Developers, as well as UI/UX Designers, Business Analysts, and test Engineers.
- Developed and maintained Angular web applications for the company's clients, including bug fixes, enhancements, and new features.
- Promoted better component life-cycle practices, which increased turn around speed by 74%, an improvement from previous years.
- Built user interface, data visualizations and designed overall user experience, resulting in 20% increase in sales.

### Sr. Front End Developer

**Teltech**

📅 05/2015 - 02/2017    📍 Tewkesbury , UK

Responsibilities:

- Developed Instaport in AngularJS as a free tool for users to download all of their Instagram media to their computer.
- Created a Vibbi dashboard in AngularJS. Added an onboarding process for users to set their accounts. Managed user roles and authentications.
- Using advanced level of jQuery, AJAX, JavaScript, CSS and pure CSS layouts.
- Wrote jQuery function while implementing various UI Screens across the whole web application both consumer facing as well as internal application.
- Worked as a productive and positive team member to design, code, test, report and debug operations.
- Pioneered using isomorphic React.js and Node.js for 40+ web applications, which decreased lead times by 69%.
- Built responsive websites for 40+ customers using semantic React.js compiled using maven and webpack build tools.
- Built custom Report viewing Web Parts and configured the layout of the portal page to embed personalized reports from SQL Server Reporting Services.

# EXPERIENCE

## Front End Developer

**ElanWave**

📅 07/2013 - 04/2015    📍 Novi Sad, RS

Responsibilities:

- Built a front-end widget that is added as a single external script to an HTML page but works as a big library using Vanilla JavaScript and jQuery.
- Helped to achieve a consistent look and visual theme across the website by promoting uniform fonts, formatting, images and layout.
- Developed my teamwork skills by working in close collaboration with 10 other colleague.
- Worked on internal services with the design team, and manage time across multiple projects and tasks in a deadline-driven, team environment.
- Worked with UX designers, developers, product managers to develop a new membership platform that brought in a 37% increase in annual revenue.
