Not new freelancer

Monday, December 2, 2019   7:36 PM

***********I am not new freelancer, Senior Laravel developer here******************
Hello,

I have been working as a professional Laravel developer for 6 years and I've gained rich experience with it.
Basically, I've investigated your requirements carefully.
As far as I'm concerned, I'm the most qualified for this job.
Also, I have good experiences with Frontend such as ReactJS, Vue, Angular HTML5, Bootstrap and CSS.
Also, I have good experiences with Backend such as NodeJs, PHP and Python.

http://merchantmoney.co.uk/
http://miamidollsescorts.com/
http://assschuhe.de
http://www.reeplex.com.au/
https://www.nutriheroes.com/

I promise the best quality on time and 24/7 communication.
Also, I will work on your timezone.
I haven't ever made my employers angry who made a trust on me.
Please contact me for further discussion.

Best regards.

MEAN stack

Hi. , I am an excellent MEAN stack developer, I think your job is very suitable for me.
I am a full stack developer extensively working on backend and frontend development.
I have worked with react.js, node.js, angular.js, express.js, Vue.js, MongoDB for 6+ years long.
I have been extensively using AngularJS as frontend layer.
Familiarity with server-side javascript (node.js) and related tools Grunt, Gulp.
I design custom views with bootstrap (twitter and angular-bootstrap).
I have also developed custom directives and filters using node.js backend API.
Also, I have been extensively using SlickGrid or Angular UI Grid.
I follow all the best practices and we have expertise over advanced AngularJS concepts like Reusable Directives, Custom Components, Interceptors, Factories, Services.

You can check my results.

E-commerce

Sunday, November 17, 2019   10:59 PM

*******Ecommerce Expert Here**********
Hello,

I have been working as a professional E-commerce developer for 6 years and I've gained rich experience with it in other companies.
Just FYI, I had worked for 2 years with US partner Blue Stout, which is a great E-commerce dev company.
Please review my portfolio if you have one sec.
Basically, I've investigated your requirements carefully.
As far as I'm concerned, I'm the most qualified for this job.
Also, I have good experiences with Frontend such as HTML5, Bootstrap and SCSS.
Here are some examples I have made before.

https://www.twillory.com/
https://www.jlhufford.com/
https://taftclothing.com/
https://scooteretti.com/
https://www.shamansmarket.com/
https://heatfreehair.com/
https://shop.nuheara.com/products/iqbuds
https://www.curlygirldesign.com/
https://www.sportsperformancetracking.com/
https://www.usarim.com/
http://mcmoniglegroupcorp.com/

I promise the best quality on time and 24/7 communication.
Also, I will work on your timezone.
I haven't ever made my employers angry who made a trust on me.
Please contact me for further discussion.

Thanks

CI

MEAN stack

Hi. , I am an excellent MEAN stack developer, I think your job is very suitable for me.
I am a full stack developer extensively working on backend and frontend development.
I have worked with react.js, node.js, angular.js, express.js, Vue.js, MongoDB for 6+ years long.
I have been extensively using AngularJS as frontend layer.
Familiarity with server-side javascript (node.js) and related tools Grunt, Gulp.
I design custom views with bootstrap (twitter and angular-bootstrap).
I have also developed custom directives and filters using node.js backend API.
Also, I have been extensively using SlickGrid or Angular UI Grid.
I follow all the best practices and we have expertise over advanced AngularJS concepts like Reusable
Directives, Custom Components, Interceptors, Factories, Services.

You can check my results.

Woocommerce

Sunday, November 17, 2019   10:58 PM

*******Woocommerce Expert Here**********
Hello,

I have been working as a professional Woocommerce developer for 6 years and I've gained rich experience with it in other companies.
Just FYI, I had worked for 2 years with US partner Blue Stout, which is a great Woocommerce dev company.
Please review my portfolio if you have one sec.
Basically, I've investigated your requirements carefully.
As far as I'm concerned, I'm the most qualified for this job.
Also, I have good experiences with Frontend such as HTML5, Bootstrap and SCSS.
Here are some examples I have made before.

https://www.twillory.com/
https://www.jlhufford.com/
https://taftclothing.com/
https://scooteretti.com/
https://www.shamansmarket.com/
https://heatfreehair.com/
https://shop.nuheara.com/products/iqbuds
https://www.curlygirldesign.com/
https://www.sportsperformancetracking.com/
https://www.usarim.com/
http://mcmoniglegroupcorp.com/

I promise the best quality on time and 24/7 communication.
Also, I will work on your timezone.
I haven't ever made my employers angry who made a trust on me.
Please contact me for further discussion.

Thanks,

Web

*******Web Expert Here**********

MEAN stack

Hi. , I am an excellent MEAN stack developer, I think your job is very suitable for me.
I am a full stack developer extensively working on backend and frontend development.
I have worked with react.js, node.js, angular.js, express.js, Vue.js, MongoDB for 6+ years long.
I have been extensively using AngularJS as frontend layer.
Familiarity with server-side javascript (node.js) and related tools Grunt, Gulp.
I design custom views with bootstrap (twitter and angular-bootstrap).
I have also developed custom directives and filters using node.js backend API.
Also, I have been extensively using SlickGrid or Angular UI Grid.
I follow all the best practices and we have expertise over advanced AngularJS concepts like Reusable Directives, Custom Components, Interceptors, Factories, Services.

You can check my results.
